

Accelerating Community Engagement and Response on HIV and AIDS Prevention (ACER) Project - Matching Fund Request for Human Rights (Sub-Recipient 4)

Expression of Interest (EOI) Number: TLF-MFRHR-36

Issuance Date: July 18, 2019 (Thursday)

Deadline of Submission: July 25, 2019 (Thursday)

Call for Expression of Interest for Online-based Training Developer under TLF SHARE Collective for – “Accelerating Community Engagement and Response on HIV and AIDS Prevention” (ACER project)”.

CALL FOR EXPRESSION OF INTEREST

The Philippines is one of 20 countries that the Global Fund has prioritised for the provision of intensive support to scale up comprehensive programs to reduce human rights-related barriers to health services. An in-depth baseline assessment was carried out from December 2017 to April 2018 which provided data about the human rights-related barriers to HIV and TB services in the Philippines and any existing programs for their elimination.

In order to address human rights related barriers to health services, Global Fund provided an initiative called the Matching Fund Request (MFR). The framework of the proposed MFR is that an empowered community and its champions can trigger concrete changes in practices towards addressing HIV related human barriers. The MFR focus will be (a) Legal Literacy to address insufficient information (especially rights of people who inject drugs to services) (b) Monitoring, Documenting and Reporting towards improving current practices (e.g. treatment discrimination) as well as strengthen access to Justice to address fear of violence and loss of freedom (relevant to all people living with HIV and key population, particularly people who inject drugs community (c) Support to implementation of enabling policies and programs (e.g., proxy consent for minors and understanding OHAT treatment package, including for PLHIV injecting drug users).

TLF Share is looking for an Online-based Training Developer. The consultant will:

1. Develop an Online-based Legal Literacy training - Architecture Design and Prototype Development
2. Integrate with existing (face-to-face) training design and manual,
3. Develop the database and analytics of the system activities,
4. Portal development and deployment,
5. Stabilization & user-acceptance-testing,
6. User Trainings/Workshops
7. Support and Maintenance

The consultancy shall commence on July 2019 to September 2019.

KEY QUALIFICATIONS

- Extensive practical knowledge and experience on SOGIE, HIV and human rights
- Experience in online-based training module development
- Preferably with tertiary degree accomplishment in education, social science, communication, software development, computer programming or related fields
- With excellent writing skills in English and good communication skills
- Preferably based in Metro Manila
